0 of 0 review helpful Do not waste your time and money By Perplexed I could have saved a lot of time and money by going here <https://msdn.microsoft.com/en-us/library/aa970268.aspx> The chances are that you are no longer considering this book because a newer version is available I purchased this book a year ago and finally have time to work through it The writing is very dry It spends a lot of time ex Windows 8 enables you to build stunning

applications that integrate with each other services and Windows itself like never before And you can sell them in the Windows Store for tablets such as Surface laptops and traditional desktop PCs Now world renowned Microsoft programming guru Adam Nathan shows you exactly how to write first class apps for this radically new version of Windows
