By Lester Madden : Professional Augmented Reality Browsers for Smartphones: Programming for junaio, Layar and Wikitude Professional Augmented Reality Browsers for Smartphones: Programming for junaio, Layar and Wikitude:

2 of 2 review helpful Decent but already becoming outdated By Comrade Mike This book is exactly what the title suggests it is a look at the three major AR browser platforms for smartphones It has helped me get a feel for what it is

like to develop content for each The problem is the book s shelf life It is already out of date in that Wikitude has launched the ARchitect kit This means not only that one of the thre Create amazing mobile augmented reality apps with junaio Layar and Wikitude Professional Augmented Reality Browsers for Smartphones guides you through creating your own augmented reality apps for the iPhone Android Symbian and bada platforms featuring fully workable and downloadable source code You will learn important techniques through hands on applications and you will build on those skills as the book progresses Professional A
