Planet of the Apps:

2 of 2 review helpful The Pulp Fiction of SharePoint books By Daniel S This book provides a concise easy to read and very to the point overview of building apps for the new version of Microsoft SharePoint Over the years I have read Sahil s other books and I always look to his work as my go to for SharePoint related information I ve always enjoyed his use of humor to keep things moving along although this book is a bit The one book you need to get started with what is perhaps the biggest difference between SharePoint 2010 and SharePoint 2013 This book covers the basics of Apps the inside workings Provider hosted apps and Azure hosted apps It talks of development experience and nuances of both on premises Apps and Office 365 Apps Note This book does not cover anything about Office Client Apps About the Author Sahil Malik is a techie like you He loves new technologies playing with gadgets programming building computer systems or breaking them He delivers trainings in Microsoft technologies including SharePoint and consults on various interest
