0 of 0 review helpful What a great book By Lyr Lobo I bought the Second Edition read through the author s notes looked over the chapters skimmed some of the content and reviewed the wonderful tips at the end of the book Wow I love the conversational style the author uses with the reader his clear presentation of information use of graphics examples and frank explanation of how to get started and instal This book is a collection of notes I created while

learning Android programming in order to create my first Android app EquityYo Stock and Fund Database While I am no Android programming genius that much is certain I thought it would be a good idea to gather together all of those tiny little programming tips and tricks I ve found along the way and place them in one spot I do not claim that everything in this book is 100 original and I fully admit to copy and p
