By Tom Barker : Pro Data Visualization using R and JavaScript a hedge is an investment position intended to offset potential losses or gains that may be incurred by a companion investment in simple language a hedge is used to search metadata search full text of books search tv captions search archived web sites advanced search Pro Data Visualization using R and JavaScript:

4 of 8 review helpful Very bad print in black and white instead of colors By Lukas Nick The book is advertised as being printed in colors on the website s preview But when I got the book and opened it it turned out to be printed in black and white including all diagrams and graphics These often just don t work without colors since you can t distinguish different parts of it Also the quality of the print i Pro Data Visualization using R and JavaScript makes the

R language approachable and promotes the idea of data gathering and analysis You ll see how to use R to interrogate and analyze your data and then use the D3 JavaScript library to format and display that data in an elegant informative and interactive way You will learn how to gather data effectively and also how to understand the philosophy and implementation of each type of chart so as to be able t About the Author Tom Barker is an engineer a professor and an author Currently he is Sr Manager of Web Development at Comcast and an instructor at Philadelphia University He has authored several books on web development including Pro JavaScript Performance
