9 of 10 review helpful Too basic for me By A Customer As a visual basic programmer I was hoping this book would concentrate on how to do interesting things in Word Instead this book spends 80 pages on an intro to VBA and there

are just a few examples of interesting things you can do in Word So I d recommend this book for someone who has never programmed in VBA before I m thinking of ordering an advanced Word book inst This is a personal training system for those who want to customize Word 97 using Visual Basic for Applications Word s new built in programming language About the Author Michael Halvorson has written more than 30 books including the popular Microsoft Visual Basic 2008 Step by Step Microsoft Office XP Inside Out and Microsoft Visual Basic 6 0 Professional Step by Step A former Visua
