By Neil Smyth : iOS 8 App Development Essentials - Second Edition: Learn to Develop iOS 8 Apps using Xcode and Swift 1.2 theres all manner of hand wringing about the state of sex and relationships in the smartphone era online dating is ruining romance and my god the sexting iOS 8 App Development Essentials - Second Edition: Learn to Develop iOS 8 Apps using Xcode and Swift 1.2:

6 of 6 review helpful A great resource for those looking to get into Swift from another OOP language By Shields
While I do not program professionally I have been writing code as a hobby for more than 20 years I started with VB 3

through 6 and then progressed into C by 2002 Several years ago I tried to pick up Objective C I dabbled a bit with it but could never really get to that ah ha moment It just never felt nat This is the Second Edition of iOS 8 App Development Essentials This edition has been fully updated for Swift 1 2 and Xcode 6 3 Beginning with the basics this book provides an outline of the steps necessary to set up an iOS development environment An introduction to the architecture of iOS 8 and programming in Swift is provided followed by an in depth look at the design of iOS applications and user interfaces More advanced topics such as file handling database ma
