By Jeff Kelley : Developing for Apple Watch: Create Native watchOS Apps with the WatchKit SDK 100 workshop technology conference taking place at the end of summer august 28 29th 2015 there will be multiple hands on sessions on software development devops 12202016 053800 4262016 062800 4262016 062100 4262016 062100 4262016 062100 1112016 054700 4262016 062700 4272016 062500 Developing for Apple Watch: Create Native watchOS Apps with the WatchKit SDK:

0 of 0 review helpful Good Guide By Antigone Walsh This book effectively outlines the process from idea to Apple Watch app The progression is logical and the writing is clear and understandable It is not for novices You don t however have to be a super experienced ios programmer to benefit A working knowledge of programming and a

comprehension of Swift will suffice The book contains black and white photos and screenshots You've got a great idea for an Apple Watch app But how do you get your app from idea to wrist This book shows you how to make native watchOS apps for Apple's most personal device yet You'll learn how to display beautiful interfaces to the user how to use the watch's heart rate monitor and other hardware features and the best way to keep everything in sync across your user's devices New in this edition is coverage of native apps for watchOS 2 With the new version About the Author Jeff Kelley has been developing iOS apps since the SDK's release in 2008 He has developed apps for major clients and his apps have been in the top 10 list of the App Store featured in national television campaigns and demonstrated by celebrities
