0 of 0 review helpful Should be zero stars By Customer I couldn t give zero stars which is what it deserves The book is

full of typos errors and missing information What ever you do don t get the Kindle version The type used for the code snippets is so small that it is completely unreadable The book say that the chapter by chapter code is available at a specified website Not so only the completed projec An operating manual for the hottest mobile operating system The Complete Idiot s Guide r to Android App Development gets novice developers up and running quickly on creating their very own mobile applications with step by step instruction on everything they need to design develop test and publish their fully featured apps The Android operating system is now the largest mobile platform in the U S and there are now more than 90 000 apps ava About the Author Christopher Froelich is a professional software developer who has written software applications for internet service providers biotech firms the United States Army Proctor and Gamble and the Food and Drug Administration He is also a
