0 of 0 review helpful Not Very Good By Andrew A beginners visual walkthrough of a Silverlight LOB application would be a more appropriate title I was trying to find a book to take my LOB skills to the next level and this was not it Who this is aimed for I am not sure It seems to assume the reader has next to no Silverlight knowledge and at the same time expect them to understand more complex scena This highly practical expert level tutorial teaches you to build a

Line of Business application with the aid of a case study which gradually builds throughout the book It also includes a jumpstart chapter for developers coming from other technologies If you already have a firm grasp of Silverlight development and are keen to advance your specialist knowledge of Line of Business LOB application development then Expert Line of Business Application Development for Sil About the Author Braulio Diez is a freelancer specializing in Microsoft technologies who has more than 15 years of experience working on international projects He is also a Silverlight MVP consultant technical writer open source developer trainer and speak
