7 of 7 review helpful Not bad not great By Brian Donnelly I wasn't going to write a review of this book because of the glowing reviews it received from the other readers however I had a few colleagues of mine go through it and they had the same issues that I did The good This Book does not spend the first 3 chapters talking about the history of MVC net C I cannot stand programming books that do this it is testable It is light weight It is open source It is Microsoft Yes finally Microsoft has figured it out ASP.NET MVC 2.0 lets you test drive your code control the output of your HTML

and leverage C and NET in an easy to use web framework This book shows you all you need to know to get started developing web applications using test driven development TDD You ll learn how to do everything f What a refreshing and worthwhile book Scott Forsyth s Blog Read the full review here weblogs.asp.net/owscott/archive/2010/08/18/test-drive-asp-net-mvc-by-jonathan-mccracken.aspx About the Author Jonathan McCra
